

## Cellulose insulation is the greenest choice to insulate your home.

Offering the greatest energy savings, the highest recycled content and the lowest embodied energy (amount of energy required to manufacture) of any insulation product. Weathershield is not only a great choice, its the greenest choice, too.

**Greenest of the Green™**  
Cellulose Insulation

Cellulose insulation is one of the greenest products on the market today and will allow you to make a positive contribution to the environment without sacrificing performance.

CELLULOSE INSULATION  ISOLANT CELLULOSIQUE

## MAKING THE RIGHT CHOICE Naturally!

## Easy as 1-2-3

## Environmental Choice

- ✓ 87% recycled post-consumer newsprint
- ✓ Made from a renewable natural resource
- ✓ If you insulate a small size attic with cellulose insulation you will save:
  - 19 trees
  - 3.3 cubic metres of landfill
  - 30 kgs of air pollution
  - 682.5 gallons of oil
  - 4000 kw hours of energy
  - 7000 gallons of water
- ✓ 10 times less energy to manufacture than fiberglass
- ✓ 64 times less energy to manufacture than foam insulation
- ✓ Environmentally-responsible manufacturing

## Performance You Can Count on

- ✓ Superior thermal and acoustical properties
- ✓ Excellent R-value
- ✓ Cost-Effective and Energy Efficient
- ✓ Safe and Easy to Install  
(Insulate your attic in as little as 2 hours)
- ✓ Prevents mold and mildew
- ✓ Enhanced Fire Resistance
- ✓ Deters insects, pests and rodents

## Rewards

- ✓ Economical and Affordable
- ✓ Reduced Energy bills
- ✓ Safe & Non-Toxic
- ✓ Free of asbestos, formaldehyde, CFCs, HFCs or HCFCs
- ✓ No Harmful VOCs emissions
- ✓ No human carcinogen warnings or potential risk of carcinogen
- ✓ Quality Assured
- ✓ Comfort - knowing you made the right choice for a safer, quieter, warmer home
